Advanced features

Share results without effort by creating **downloadable reports** with a single click. Handy right?

Want to share an **example pdf** containing with external stakeholders? No problem.

You are in charge. Take full control of result distribution by **watermarking** your output files.

Standard heatmaps not to your liking? Create your own **custom heatmap colors** to ensure the output works for you.

Still need a raw data export? We got you covered. **Export raw heatmap data** for all your analyzed images and videos.

Need your results the moment you upload them? You got it. We will move you to the front of our queue using **priority queuing**.

Custom features

Simplify and standardize your IT infrastructure by setting up **Single Sign On** for Expoze.

Embed Expoze in your organization and/or intranet using our **white label application**.

Prefer to build your own application layer? No problem. We support direct **API access**.
